

ALIEN 100-2/TT

A Brand New Member of the Alien Family

- Fast, highly flexible
- Quick job change in 3 minutes
- Double productivity- 2 station turntable;
Print one side + load/unload product print other side
- Auto pad clean

2-Station **PNEUMATIC** Turntable

FEATURES

- User-friendly high speed pad printer
- Pneumatic pad stroke
- APS : Automatic pad stroke by optical scale
- THK linear guide rail with runner blocks
- Use thin steel plate, polymer plate and 10 mm steel plate
- Kent patented CMIC sealed ink cup system
- Automatic pad cleaning (optional)
- European safety CE
- RS-232 (in-line setup)

SPECIFICATIONS

Ink Cup Size:	Ø90mm
Plate Size:	100x250 mm
Pad Stroke:	0-60 mm (optional scale system)
Max. Pad Pressure:	480N at 6 bar
Speed:	4,000 cycles/hr. *
Turntable Size:	Ø280mm
Index Stations:	2
No. Of Fixtures:	2
Power:	110/220V 50/60Hz 30W
Air Consumption:	110 Liters/min.
Size: L x W x H	815x565x1,415mm
Weight:	120.5 Kg. (Approx.)

* Actual output rate will be affected by subjective factors.
e.g. product / image size and printing surface curve etc...
